Subject: New arrangement

Victoria,

Everything is set up on my end. I've created the vendor profile for Nexus Trading. David is on board and will process payments without questions.

First invoice should be for €125,000. Use 'Strategic Consulting Phase 1' as description. Keep it vague - no specific deliverables mentioned.

Wire instructions: Use the BVI account. Wait 3 days after receiving funds before moving to Cayman.

Delete this after reading.

Marcus

Marcus,

Understood. Invoice will be sent Monday.

My accountant suggests we vary the amounts to avoid patterns. Also, quarterly payments look more legitimate than monthly.

Regarding the Monaco property - my lawyer says we should use a different vehicle for the purchase. I'll set up another company in Luxembourg.

Victoria

Subject: Nexus invoice

Marcus,

Got the latest Nexus invoice for €95,000. Processing today as urgent per your request.

BTW, Jennifer in compliance was asking about Nexus. She wanted to see the contract and service deliverables. I told her it's a confidential executive project and referred her to you.

We should be more careful. Maybe create some fake reports to have on file?

David

Good thinking. I'll have Victoria send some generic PowerPoints we can file as 'deliverables.' Make sure they're dated appropriately.

Handle Jennifer. Take her to lunch, find out what she knows. If she keeps pushing, let me know - I have contacts in HR.

And use Signal for sensitive stuff, not company email.

M
